

PERSONAL OBJECTIVE

To secure a challenging position in a progressive organization that will utilize my talents and provides me with an opportunity for personal and professional growth.

TECHNICAL SKILLS

Programming:	Java, JavaScript, Python
Frontend:	HTML5, CSS3, React.js, Next.js, Tailwind CSS, Vite
Backend:	Node.js, Express.js, FastAPI, REST APIs
Databases:	SQL, PostgreSQL, Supabase
AI & APIs:	Google Gemini API, OpenAI API, LLM Integration, Prompt Engineering
Automation & Scraping:	Playwright, Browser Automation, Web Scraping, DOM Data Extraction
Auth & Security:	JWT, Bcrypt, Role-Based Access Control (RBAC)
Messaging & Integrations:	WhatsApp Cloud API, Email APIs (Brevo, SendGrid), LinkedIn Automation
DevOps & Tools:	Git, GitHub, Docker, Postman, Render, Vercel, Hostinger

WORK EXPERIENCE

VRM AI Technology — Junior AI Engineer April 2026 – Present

- Developed and contributed to AI-powered business applications focused on automation and vendor relationship management.
- Built and integrated backend APIs, database workflows, automation processes, and responsive frontend dashboards.
- Worked with AI/API integrations, data processing, communication APIs, and cloud deployment.

CodeTech — Java Developer Intern August 2025 – September 2025

- Developed a Java-based console application to help users record and manage daily income and expenses.
- Implemented features to categorize expenses such as food, travel, and shopping, and generated daily and monthly spending summaries.
- Utilized arrays, loops, and conditional statements to process financial data and applied Object-Oriented Programming (OOP) principles.

PROJECT WORKS

SalesAI – B2B Sales Outreach & Automation Platform Work Project | Junior AI Intern

- Built a multi-channel sales automation platform using React, Vite, Node.js, Express, PostgreSQL, and Prisma, enabling lead ingestion, campaign creation, and outreach management.
- Implemented workflow: *Lead Upload* → *Data Processing* → *Campaign Creation* → *Personalized Email/WhatsApp/LinkedIn Outreach* → *Engagement Tracking* → *Automated Follow-ups*.
- Integrated OpenAI, Brevo, SendGrid, WhatsApp Cloud API, BullMQ, Redis/IORedis, and Node-Cron for AI-assisted outreach, background processing, and scheduled campaigns.
- Developed Excel/CSV bulk processing, click tracking, campaign analytics, API security, and production deployment using Docker/PM2 and Hostinger.

PRM – Vendor Management System (VendorBridge) Work Project | Junior AI Intern

- Developed a B2B Vendor Management System using React, Vite, Node.js, Express, PostgreSQL, and Tailwind CSS for managing external staffing and consulting vendors.
- Integrated Excel/ExcelJS/XLSX-based vendor data processing and Microsoft email account integration for company colleagues involved in vendor outreach.
- Enabled internal users to manage vendor communication and automatically notify relevant colleagues about upcoming vendor meetings and outreach activities through email.
- Integrated Gemini API as an internal AI assistant to generate personalized vendor email content based on vendor details, communication context, and upcoming meetings.
- Implemented JWT/Bcrypt authentication, vendor dashboards, tier-based workflows, bulk spreadsheet processing with Multer, and vendor communication management.
- Implemented contract/document management and Bench-to-Billing workflows, with the application deployed on Hostinger.

PROJECT WORKS (CONTINUED)

AI Voice Technical Support Agent

Personal Project | Practice

GitHub: <https://github.com/Maanusree/ai-voice-technical-support> | [Live on Render](#)

- Built an end-to-end AI voice support system using Python, FastAPI, JavaScript, Twilio Voice API, Web Speech API, and Edge-TTS for both browser-based and real telephone conversations.
- Implemented workflow: *Customer Call* → *Speech-to-Text* → *Issue Detection* → *Troubleshooting Decision Tree/LLM* → *Text-to-Speech* → *Follow-up* → *Resolution or Human Escalation*.
- Integrated Gemini 2.0 Flash, OpenAI GPT-4o-mini, Groq Llama 3.3, and deterministic offline troubleshooting logic across multiple technical-support scenarios.
- Added Twilio telephony, English/Tamil voice interaction, conversation transcripts, safety-hazard detection, automatic ticket escalation, Web Audio/Canvas visualization, and Pytest testing; deployed on Render.

Support Ticket Management System

Personal Project | Practice

GitHub: <https://github.com/Maanusree/support-ticket-management> | [Live on Vercel](#)

- Developed a full-stack support platform using Next.js, React, Tailwind CSS, FastAPI, SQLAlchemy, PostgreSQL, JWT, and Bcrypt with separate Customer, Agent, and Administrator workflows.
- Implemented workflow: *Ticket Creation* → *Assignment* → *In Progress* → *Resolution* → *Closure*, with controlled status transitions and mandatory resolution handling.
- Implemented PostgreSQL row-level locking using SQLAlchemy `with_for_update()` to prevent multiple agents from claiming the same ticket simultaneously.
- Added role-based access control, public/internal comments, audit activity tracking, automated Pytest testing, and cloud deployment with the frontend on Vercel.

Chatbot for Civil Law

April 2024 – March 2025

GitHub: <https://github.com/Maanusree/Chatbot-for-civil-law>

- Developed a web-based Civil Law Chatbot that dynamically retrieves legal information using the Google Custom Search API. Implemented the backend using Java and Spring Boot to process user queries through RESTful API endpoints.
- Designed frontend chat interface using HTML5, CSS3, and JavaScript. The system processes user input, sends search requests to Google API, extracts relevant snippets from JSON responses, and displays concise legal explanations.

EDUCATION

Course	College / School	CGPA / Percentage	Year
B.Tech - IT	Sethu Institute of Technology	9.4 CGPA	2022 – 2026
H.S.C.	Sirumalar Girls Higher Secondary School	87.86%	2021 – 2022
S.S.L.C.	Sirumalar Girls Higher Secondary School	96.16%	2019 – 2020

ACHIEVEMENTS AND CERTIFICATIONS

- NPTEL Gold Medalist** in Industry 4.0 & Industrial IoT, with **90%** (Jan–Apr 2025).
- Awarded Certificate of **Academic Best Outgoing Student** of IT department (2022–2026) with CGPA of **9.4**, Sethu Institute of Technology.
- National level symposium participation certificate for paper presentation on chatbot for civil law at **AISTHETICA 2K23**, KLN College of Engineering and Technology.
- Rotaract Club Member** — Participated in youth engagement initiatives and leadership development programs.
- Certificate of Appreciation for participating in **Codequest #23** hosted by Naukri.

LANGUAGES KNOWN & HOBBIES

Languages Known: Tamil, English | Hobbies: Doing Craftwork, Drawing, Watching Movies

I hereby declare that all the details given above are correct and true to the best of my knowledge.
